

# A message from Head Boy and Head Girl '09-'10

“The only thing that separates successful people from the ones who are not is their willingness to work very, very hard.”

This is central to life at Cardiff Sixth Form College. We believe that with hard work, ambition and guidance, anything is possible. As students we have always been provided with numerous opportunities from work experience placements to interview preparation days. As well as this, the teachers and our fellow students are always willing to help. From the moment you enter the college, you immediately get the sense of the work-orientated atmosphere. As a year group, we achieved excellent grades last year in our AS Levels, but this required a lot of hard work from both students and staff. However, I am sure that you will agree that hard work is definitely a price worth to pay in return for achieving the best you can. The small class sizes within the college provide you with many opportunities, such as regular class discussions, which are unavailable to you anywhere else. The members of staff, who are all the best in their chosen subjects with many years of teaching experience, can interact with a group as a whole and can focus directly on your individual educational needs.

This year's university applicants have proved these methods successful. We have had offers for Medicine, Veterinary Sciences, Dentistry, I (Anne Barrett, Head Girl) have had an offer from **Oxford University** to read Biochemistry and I (Kavil Bhudia, Head Boy) have had offers from **many universities for Pharmacy**. We are all predicted to achieve the grades that have been asked for in our offers.

We are all very close and this is another factor that contributes to our success. If we ever have any problems or are just feeling a bit low we can always go to each other. As well as working hard we also believe it is important for us to socialise together outside of college. We go for meals, to the cinema and this year went ice-skating!

We have truly enjoyed our time at Cardiff Sixth Form College and we would not have the same bright prospects if we had gone to another college. This could easily be the same for you if you choose to study here and are committed to your work. We have no doubt you will enjoy your experience as much as we have!

So if you have big goals and are willing to work hard, you would be well suited here and we look forward to meeting you!
