Mrs. Y Sarwah,
Cardiff Sixth Form College,
Newport Rd,
Cardiff

26th September 2009.

Dear Yas,

Please forgive the typed form of this letter. If I were to write it by hand you would never be able to read it!

I just wanted to put into a letter our deep gratitude to you and all at the college for the assistance, support and confidence you gave Sara, enabling her to achieve her dream of studying medicine. The amount of personal commitment you gave, especially in the first year sixth, was wonderful.

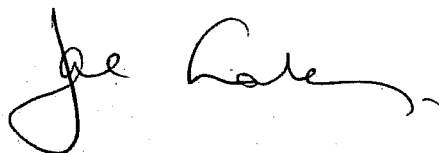

We were so fortunate to have found you at what was a very difficult time for her, and will never forget the skilful teaching she received from you as well as your friendship and encouragement. You always had faith in her and that really helped to rebuild the confidence she had lost.

She has gained a lot from her time at the college. Not only academically, but also from her experience of a very different community from the one she had left at her previous school.

She has just finished her first week and has settled in very well. Shetha and Omar are her near neighbours in halls of residence and they are all having a brilliant time! She is delighted at the prospect that she might be able to be of help to future students once Anita has moved on and is very grateful to you for considering her for that role. I know she very much appreciated Anita's input during applications, which was very helpful indeed.

Mark and I wish to say "thank you" most sincerely to you, Naz and all who taught Sara during her two years at Cardiff Sixth Form College. We wish the college continued success from year to year.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Joe Cole', written over a horizontal line.
