

Enrichment Week February 2022 - SAMPLE

Welcome! We are delighted to be able to offer all Year 12 students a place in our ***VIRTUAL*** Enrichment Week!

Over the course of these five days, you will undertake a series of super curricular activities which will put you (more than ever before!) in an even further and advanced position to hopefully broaden or confirm career options. We encourage you to please take advantage of all relevant activities to your chosen degree and university choices for you to fully benefit from Enrichment Week.

Please find below a structure for the week. In each career choice you have, the focus **must** be on your interests, experience and employment information gained as this is the opportunity to ask as many questions as possible with world-leading or local employers.

- All sessions will be live talks and will take place via Google Meet or Zoom - links will be included in this document (please do revert to this document frequently for any changes.)
- Your Head of House will be available before the week for any questions you may have - please contact them by email.
- Mr Sage will be available on email before and throughout the week for any **Enrichment Week Questions** you may have - please feel free to email on **dale.sage@ccoex.com**
- **All students can have their own cameras turned on or off (at their discretion) and should mute microphones throughout each talk. There will be a time to ask any questions you may have and please just raise your hand or write in the Google/ Zoom Chat.**

Each day, there may not be a careers talk available for all students and we encourage you to start or complete the following in free time.

- Free Online Courses - Future Learn (<https://www.futurelearn.com/>), EdX (<https://www.edx.org/>) or Coursera (<https://www.coursera.org/>).
- Wider Reading related to your career choice - reading lists are posted on the college careers website.
- Check entry requirements and course criteria on university websites (<https://www.thecompleteuniversityguide.co.uk/>).

Some talks may require a Zoom account and you can sign up for free on <https://zoom.us/join>.

On some days, you may also have special Careers & HE Department-led events, including Curriculum Vitae & Job Application Presentation, Employability Skills and a LinkedIn workshop.

If you have any questions about the upcoming enrichment week, please do not hesitate to ask Mr Sage.

Kind regards,

Mr Sage, Miss Bendle & Dr Foster

King's College London, Online Pre-University Winter School - Various Programmes Available

We are delighted to announce that Winter School will be returning in February 2022. Designed primarily for students aged 15-17, who will soon be making decisions around university, this one-week online programme is an intensive introduction to undergraduate level study. The course allows students to explore different subjects within a wider academic discipline and make informed choices about their options beyond compulsory education. The programme offers five streams, spanning teaching from most of King's faculties and schools.

Choose from **Business Economics, Health & Science, Law, Politics & Social Science, Media, Art & Culture and Psychology & Neuroscience.**

Programme Dates, **14th February 2022 - 18th February 2022** and the application deadline is **31st January 2022**.

Apply here: <https://www.kcl.ac.uk/summer/pre-university/winter-school>

Brighton & Sussex Medical School, Virtual Work Experience

<https://bsmsoutreach.thinkific.com/courses/VWE>

GP Interactive Video, Virtual Work Experience

<https://www.rcgp.org.uk/training-exams/discover-general-practice/observe-gp.aspx>

Registers will be taken and recorded for each event throughout the enrichment week programme.

Reminder: Prepare any questions that you may have before a workshop or talk.
