

Guardianship Agencies Contact Details

Cardiff Sixth Form College works very successfully with a wide range of organisations and individuals providing guardianship services for the students in our care. They provide a vital link between family and college and lead to a very positive experience for all concerned. All guardians acting for students in our care are familiar with our requirements for an excellent level of service and interact regularly with us to support the pastoral care and academic progress of the students.

Whilst it is not possible to list all guardians with whom we work, some of the larger agencies are listed below for your information. The choice of guardian is entirely at the discretion of the family, providing they are able to fulfil the requirements of a guardian for students at Cardiff Sixth Form College as set out in the Guardianship Agreement.
