

## Careers & Higher Education Support

The Careers & Higher Education team will be there to guide and support you as you prepare to apply for the best universities in the world.

### Meet the Team:

**Dr Laura Foster - Head of Careers & Higher Education**

**Emily Davies**  
Global application strategy  
and support

**Dhishana Kidambi**  
Global application strategy  
and support

**Dale Sage**  
Work observation and  
employability skills

## University Applications

All students receive one-to-one consultations on their chosen university pathways.

Students are provided with expert support on applications to countries including the UK, the USA, Australia, Canada, Hong Kong, Ireland and Thailand. The team works with students to strategise their applications to ensure that they are as competitive as possible. As part of that, we deliver enrichment sessions on specific degree pathways such as Medicine, Economics, Engineering, Law etc... Careers & Higher Education talks form a prominent part of our calendar and feature speakers from world-leading universities and organisations.

We also run sessions on:

- Personal statement writing
- Admissions test support
- Interview preparation
- Employability skills
- Applying to Oxbridge

### Work-related Experiences

We work with all students to provide access to appropriate work-related experiences. These include:

- Work observation placements (online and in-person)
- Industry trips and visits
- Talks from industry-leading companies
- Voluntary work opportunities

### Dukes Plus

As Cardiff Sixth Form College is part of Dukes Education, students also benefit from expert support from our Dukes Plus partners:

**INVESTIN**
